Final Office Action on the Merits

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Status of the Application

2. Claims 18, 20-23, 29, 31-34, 65 and 66 are pending in the present application. Claims 23 and 33 stand withdrawn from further consideration as being drawn to a nonelected species. Claims 18, 20-22, 29, 31, 32, 34, 65 and 66 will be examined according to MPEP § 803.02.

Claim Rejections - 35 USC § 102

3. The rejection of claims 34 and 66 under 35 USC 102(b) over Kurosawa et al. is withdrawn.
4. The rejection of claims 18, 20-22, 29, 31, 32 and 65 under 35 USC 102(b) over Kurosawa et al. is maintained.

Applicant argues the reference does not anticipate the instant claims because claims 18 and 65 exclude carboxyl as a permissible substituent for Z when it is an alkenyl moiety. Applicant's argument is centered on compound 3b of the reference. Applicant's argument was considered but not persuasive for the following reason.

The rejection is based on the teaching of several bile acid derivatives. $3\alpha,6\alpha$ -dihydroxy- 5β -cholest-24-en-26-oic acid is one of said bile acid derivatives. Kurosawa also teaches $3\alpha,6\alpha$ -dihydroxy- 5β -cholestan-26-oic acid and $3\alpha,6\alpha$ -dihydroxy- 5β -cholestan-24-oic acid (see for example, compounds 1a-11a and 1d-11d). It is noted that the instant claims encompass compounds wherein Z is alkyl substituted with carboxyl.

For this reason and those given in the previous Office Action, the rejection of claims 18, 20-22, 29, 31, 32 and 65 under 35 USC 102(b) over Kurosawa et al. is maintained.

5. The rejection of claims 18, 20-22, 29, 31, 32 and 65 under 35 USC 102(b) over Kaiser (US 4,351,767) is withdrawn.

6. Claims 18, 20-22, 29, 31, 32 and 65 are rejected under 35 USC 102(b) over Cohen-Solal.

Cohen-Solal et al. teaches hyodeoxycholic acid and α -hyocholic acid and their effects on cholesterol and bile acid metabolism (see the entire article, especially Abstract). The compounds and compositions taught by the reference are encompassed by the instant claims.

Claim Objections

7. Claims 34 and 66 are objected to as being dependent upon a rejected base claim.

Note: The claims are allowable to the extent they read on the elected species, i.e., compound 30.

Other Matters

8. Applicant's request that claims 23 and 33 be rejoined and examined with the remaining pending claims is noted. However, the examiner notes that R¹⁰, R¹³ and/or R' as defined by the elected species are not encompassed by claims 23 and/or 33.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
